

**Automotive Technology / Collision Repair Technology  
Disclaimer/Hold Harmless**

I understand by signing this document that I am releasing the College, the students, and the instructors of the Automotive Technology and Collision Repair Technology programs from any responsibility of damage to my vehicle, damage caused by the repair or lack of repair of the vehicle, or the condition of the vehicle once the repairs are completed.

I understand that the students, the instructors, and the College are providing a training program for students. As such, these students are not trained or certified mechanics, nor collision repair specialists, and I voluntarily allow the students to work on my vehicle with full knowledge that the repair is part of a training program. I also realize that in lieu of a repair fee, I am asked to contribute a sponsorship fee to the student SKILLS USA chapter benefiting these students.

I understand that my vehicle may not be left on the College property after the repairs are completed and that I may not leave the vehicle on College property awaiting shipment of parts to the College. Vehicles left on campus more than 60 days after the completion of work are subject to forfeiture.

By signing this document, I am fully aware of all provisions stated above.
